

# Cake Care Instructions

## Pick Up

When carrying your cake, please place both hands under the box, being careful to keep hands under the cake center. Keep the cake level at all times.

## Transport

Cakes should be on a clean level surface, not a car seat or lap. Keep the cake cool and away from direct sunlight. Avoid sharp turns and bumpy roads!

## Storage

For best flavor and texture, cakes should be served at room temperature. You may store the cake in the refrigerator, but be sure to bring to room temperature according to this guide:

*Cupcakes – room temp at least 1 hour*

*6" – room temp at least 1 hour*

*8" – room temp at least 2 hours*

*10" – room temp at least 3 hours*

You will receive your cake chilled, so take that into consideration when storing it.
